SUBJECT:

DOCKET NO. 2005-270-G – Request for Investigation to Determine Whether a Regulation Should Be Promulgated Requiring Relocation of Certain Meter Sets or Installation of Splash Guards on These Meter Sets – Discuss this matter with the Commission.

COMMISSION ACTION:

Order Nos. 2006-168 and 2006-310 in Docket No. 2005-270-G are ambiguous concerning the filing of status reports on the replacement or modification of Type 12 meters by gas systems in South Carolina. The status report filed by the Office of Regulatory Staff on December 11, 2006 gave rise to questions regarding the pace of remediation or replacement and the duration of some replacement schedules. Some gas systems do not expect to complete their replacement or modification of Type 12 meters until 2010. Therefore, move that the Commission require semi-annual filing of these status reports until such time as the Commission determines that the status reports are no longer necessary or the frequency of reporting needs to be changed.
